[@] Members of AOSSG IFRS for SMEs Working Group

* An individual from the jurisdiction is a member of IASB SME Implementation Group

Note:

- ¹ This table is prepared based on: (1) information provided by AOSSG IFRS for SMEs Working Group members in July 2017; and (2) the jurisdictional profiles available at IASB webpage as at 6 June 2017, IFRS use around the world. The IASB webpage was last updated on 30 March 2017.
- ² The AASB is continuing to monitor the IFRS for SMEs for potential adoption in Australia; however it is not currently considering adoption. All SMEs that are Reporting Entities are permitted to use IFRS Standards (ie the AASB's Tier 1 reporting requirements) or the AASB's Tier 2 reporting requirements. Also, there is no prohibition on non-reporting entities using the IFRS for SMEs Standards if the entity is not a reporting entity reporting and not reporting under the Corporations Act.
- ³ For small and medium enterprises (SMEs), the BDASC is still in the process of reviewing the suitable accounting standards as well as formulating criteria for SMEs and cottage industries.
- ⁴ All SMEs are permitted to use the IFRS for SMEs. Non-publicly accountable SMEs subject to a statutory audit have a choice of either the IFRS for SMEs or full IFRS. The statutory audit is required when a company meets a certain threshold of revenue, asset value, and number of employees.
- ⁵ China used the IFRS for SMEs as an important reference when developing the Chinese Accounting Standard for Small Entities.
- ⁶ All entities that meet the definition of an SME in the IFRS for SMEs are permitted to use the IFRS for SMEs.
- ⁷ In addition to the HKFRS for Private Entities, SMEs are permitted to use HKFRS or, if they are incorporated outside Hong Kong, to use IFRS Standards as issued by the IASB Board. Additionally, a Hong Kong incorporated company that is not a holding company or a subsidiary in itself has the option to use the Hong Kong Small and Medium-sized Entity Financial Reporting Framework and Financial Reporting Standard (SME-FRF & SME-FRS).
- ⁸ SMEs use national standards.
- ⁹ The DSAK IAI used the IFRS for SMEs as a point of reference.
- ¹⁰ SMEs (simple companies and individual projects) are permitted to use the IFRS for SMEs.
- ¹¹ The IFRS for SMEs has been translated into Japanese.
- ¹² Medium-sized business enterprises and state enterprises are required to use either full IFRS or the IFRS for SMEs. Small enterprises must choose between full IFRS, the IFRS for SMEs, and a national standard.
- ¹³ Unlisted companies that are subject to external audit are required to use Korean GAAP (which is Accounting Standards for Non-Public Entities) unless they choose to use full IFRS Standards. Also, new SME Accounting Standards for unlisted companies other than those subject to external audit will come into effect on 1 January 2014.
- ¹⁴ There is already a set of accounting standards for micro and mini businesses in Macao. The CRAC feels that it is not appropriate to have too many tiers of accounting standards in Macao.
- ¹⁵ Private entities shall comply with either the Malaysian Private Entities Reporting Standard (MPERS) in its entirety; or Malaysian Financial Reporting Standards (MFRS) in their entirety. Section 1 Small and Medium-sized Entities has been modified to prescribe the applicability of the MPERS in the Malaysian context. In this regard, all references to 'SMEs' and 'public accountability' in Sections 1-35 have been replaced by the term 'private entities'. Section 9 Consolidated and Separate Financial Statements requires the ultimate Malaysian parent to prepare consolidated financial statements regardless of whether its ultimate parent that is not incorporated in Malaysia prepared consolidated financial statements. Section 34 Specialised Activities has been amended to provide guidance on the accounting for property development activities in Malaysia. Consequently, Example 12 on Agreements for the Construction of Real Estate contained in the Appendix to Section 23 Revenue has been removed.
- ¹⁶ The Ministry of Finance is working on amendments to Accounting Law that will include classification of entities. The Ministry of Finance states that once the classification is established, they will legislate the adoption of the IFRS for SMEs.
- ¹⁷ SMEs may choose (a) IFRS Standards adopted as Nepal Financial Reporting Standards or (b) the existing Nepal Accounting Standards with certain exemptions and simplifications for SMEs. The existing Nepal Accounting Standards will continue to be available to such entities until July 15, 2019. The NFRSs for SMEs has been developed and approved by ASB Nepal and its implementation has been pronounced by Institute of Chartered Accountants of Nepal making it effective from July 15, 2019.
- ¹⁸ Non-publicly accountable entities or non-large for-profit public sector entities that are required by law to prepare general purpose financial statements may use the RDR. That is, they apply the same recognition and measurement requirements as in IFRS Standard, but with substantially reduced disclosures (based in part on the disclosure concession principles used in IFRS for SMEs Standard). Most small and medium-sized for-profit entities do not have a statutory requirement to prepare financial statements in accordance with GAAP.
- ¹⁹ SMEs are not required to follow IFRS but IFRS for SMEs. Micro-sized entities are allowed to follow Accounting and Financial Reporting Standards for Small-sized Entities.
- ²⁰ All SMEs that meet specified criteria must use the PFRS for SMEs unless they elect to use full PFRS.
- ²¹ SOCPA is in process of adopting the IFRS for SMEs to be effective in 2018 for use by all non-publicly accountable entities (consequently, the process only kicks in with the adoption of IFRS for SMEs). Some entities would be permitted to elect early adoption in 2017. Currently, SOCPA envisions adding some disclosures to the IFRS for SMEs but not otherwise modifying the IFRS for SMEs.
- ²² An entity is eligible to use the SFRS for Small Entities if it is not publicly accountable, publishes general purpose financial statements for external users, and meets the definition of a 'small entity'. They may use full SFRS or, if they receive permission from ACRA, they may use full IFRS. The only differences between the Singapore version of the IFRS for SMEs (known as the SFRS for Small Entities) and the IFRS for SMEs are not all Singapore companies that meet the IASB's definition of SMEs are eligible to use the SFRS for Small Entities; and the Accompanying Note to the Singapore equivalent of IFRIC 15 is an integral part of the SFRS for Small Entities. This guidance is intended to be consistent with the requirements of IFRIC 15.
- ²³ Specified Business Enterprises (SBEs) above a defined size threshold and non SBEs are permitted to apply the SLFRS for SMEs.
- ²⁴ SMEs are not generally required to prepare general purpose financial statements. Those that do may use full IFRS Standards.
- ²⁵ The IFRS for SMEs has been translated into Thai, and it is currently in the FAP's adoption due process. Its effective date is expected to be 1 January 2018.
- ²⁶ SMEs use national accounting standards.
- ²⁷ SMEs in Vietnam use an accounting regime for SMEs developed by the Ministry of Finance. These SME standards are simplified compared to Vietnamese Accounting Standards.
